Performance Test - Large Document

Performance Test Page 1

Line 1: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 2: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 3: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 4: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 5: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 6: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 7: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 8: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 9: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 10: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 11: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 12: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 13: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 14: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 15: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 16: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 17: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 18: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 19: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 20: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 21: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 22: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 23: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 24: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 25: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 26: This is a performance test with substantial content to evaluate PDFKit's handling of large

documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 27: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 28: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 29: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 30: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 31: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 32: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 33: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 34: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 35: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 36: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 37: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 38: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 39: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 40: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 41: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 42: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 43: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 44: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 45: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 46: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 47: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 48: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 49: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 50: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.

Performance Test Page 2

Line 1: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 2: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 3: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 4: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 5: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 6: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 7: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 8: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 9: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 10: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 11: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 12: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 13: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 14: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 15: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 16: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 17: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 18: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 19: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 20: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 21: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 22: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 23: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 24: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 25: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 26: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 27: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 28: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 29: This is a performance test with substantial content to evaluate PDFKit's handling of large

documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 30: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 31: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 32: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 33: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 34: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 35: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 36: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 37: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 38: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 39: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 40: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 41: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 42: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 43: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 44: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 45: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 46: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 47: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 48: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 49: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 50: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.

Performance Test Page 3

Line 1: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 2: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 3: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 4: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 5: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 6: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 7: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 8: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 9: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 10: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 11: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 12: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 13: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 14: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 15: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 16: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 17: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 18: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 19: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 20: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 21: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 22: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 23: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 24: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 25: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 26: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 27: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 28: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 29: This is a performance test with substantial content to evaluate PDFKit's handling of large

documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 30: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 31: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 32: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 33: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 34: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 35: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 36: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 37: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 38: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 39: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 40: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 41: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 42: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 43: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 44: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 45: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 46: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 47: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 48: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 49: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 50: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.

Line 1: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 2: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 3: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 4: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 5: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 6: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 7: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 8: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 9: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 10: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 11: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 12: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 13: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 14: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 15: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 16: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 17: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 18: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 19: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 20: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 21: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 22: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 23: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 24: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 25: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 26: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 27: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 28: This is a performance test with substantial content to evaluate PDFKit's handling of large documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 29: This is a performance test with substantial content to evaluate PDFKit's handling of large

documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 30: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 31: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 32: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 33: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 34: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 35: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 36: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 37: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 38: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 39: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 40: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 41: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 42: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 43: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 44: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 45: This is a performance test with substantial content to evaluate PDFKit's handling of large
documents. We're testing memory usage, rendering speed, and overall performance characteristics.
Line 46: This is a performance test with substantial content to evaluate PDFKit's handling of large
